

Common HalpyBOT Commands

What is HalpyBOT?

HalpyBOT (v1) is our First-Generation IRC Assistant, designed to help Seals get limpets on target faster and more painless than ever before. It comes with a lot of features, and is easy to build upon with new features. Most notably for Seals, it powers our custom commands. Some of them are listed below!

Common Commands

Command	Response	Use
!bacon	The bacon is lit! -- https://youtu.be/Wd2qRSzCj84	A fun way of telling Dispatch that you're WR+.
!beacon [Name]	[Name]: To turn on your beacon, Go to the right-hand menu, and select to the 'Ship' tab. (1/2) Under Functions, select 'Beacon', and then select 'Wing'. (2/2)	Guide on how to turn on your Wing Beacon.
!cbinfo [Name]	[Name]: DO NOT LOG IN and provide the following info if you know it: (1/2) CMDR Name, Current System, Hull %, O2 Time Left, Platform, and if you have any life support synthesis. (2/2)	Manually start a Code Black case.
!cbmining [Name]	[Name]: You can find the location of objects using the radar module. Select the item you want on the left hand panel, then go towards it using your radar. (1/2) Open your cargo scoop, and then go towards the item. Move your ship above the item slightly, then move forward with a speed of less then 40. (2/2)	Instruct clients on how to mine without a HUD during Code Black cases.
!chatter	----- Seals, please keep chatter to #seal-bob. Thank you.	Redirect naughty seals to keep Repair Requests clear.
!clientinfo [Name]	[Name]: Greetings, CMDR. Please provide the following information: (1/2) CMDR Name, Current System, Hull %, and Platform. If your canopy is breached, LOG OUT IMMEDIATELY. (2/2)	Manually start a Hull Seals case.
!cmdlist [Name]	[Name]: Common HalpyBOT Commands: http://hullse.al/cmdlist .	A link to this page!

!drill [Name]	<p>DRILL DRILL DRILL (1/3)</p> <p>[Name]: Greetings, CMDR. Please provide the following information: (2/3)</p> <p>CMDR Name, Current System, Hull %,and Platform. If your canopy is breached,LOG OUT IMMEDIATELY. (3/3)</p>	<p>Begin a Drill for a new pup.</p> <p>[TRAINER USE ONLY]</p>
!escapeneutron [Name]	<p>[Name]: Guide to Escaping a Neutron Cone (1/2)</p> <p>Text: https://hullse.al/enText --- Video: https://hullse.al/enVid (2/2)</p>	<p>Post the guide on how to escape Neutron Star cones.</p>
!fuel [Name]	<p>[Name]: For fuel emergencies, your best bet is the Fuel Rats: https://fuelrats.com/i-need-fuel</p>	<p>Redirect a client to the Fuel Rats in case of Fuel Emergencies.</p>
!go [Name]	<p>[Name], You're up. All others, stand down.</p>	<p>Indicate which Seals are assigned to the case.</p>
!highg [Name]	<p>[Name]: Remain landed until instructed by your dispatcher. When instructed, use your VERTICAL THRUSTERS ONLY to rise up to at least 6km above the surface. (1/2)</p> <p>Keep your landing gear deployed until you are ready to jump to supercruise, and keep your ship aligned horizontally with the planet at all times. (2/2)</p>	<p>Instructions on how to safely take off from a High-G Planet.</p>
!join [Name]	<p>[Name]: Greetings, CMDR! Welcome to the Hull Seals. Here's some info to get you started on joining us: https://hullse.al/How2Join</p>	<p>Start a new Pup on their journey to Sealdom!</p>
!paperwork [Name], !pw [Name], !clear [Name]	<p>[Name]: Don't forget to do your paperwork! http://hullse.al/ppwk</p>	<p>Tell Seals to do their paperwork.</p>
!pcfr [Name]	<p>[Name]: Hit ESC to go to the PAUSE menu, click SOCIAL, enter the CMDR name in the box, and click ADD FRIEND on their name.</p>	<p>Tell clients how to add a Friend on PC.</p>
!prep [Name]	<p>[Name]: If you are landed, take off and move to at least 5Ls from any body. (1/2)</p> <p>Please drop from Supercruise, set your throttle to zero, and deploy your landing gear while you wait. (2/2)</p>	<p>Get a client ready for the arrival of their Seal.</p>
!psfr [Name]	<p>[Name]: Tap your PlayStation button, then open the Friends screen from Functions, search for your Seal's name, and add them as your friend.</p>	<p>Tell clients how to add a Friend on Playstation.</p>

!stuck [Name]	<p>[Name]: Greetings, CMDR. Please provide the following information: (1/2)</p> <p>CMDR Name, Current System, Current Planet/Moon, Your Current Coordinates, your Platform, and what services you require! (2/2)</p>	Manually start a Kingfisher Case.
!synth [Name]	<p>[Name]: To synth a new life support refill, Go to the right-hand menu, and select to the 'Inventory' tab. (1/3)</p> <p>Go down to 'Synthesis' (the second to last option), choose 'Life Support', and then select 'Resupply Life Support'. (2/3)</p> <p>This requires you have 2 iron and 1 nickel in your materials reserve. (3/3)</p>	How to synth a new life support refill.
!tos [Name]	<p>[Name]: Our Terms of Service and Important Info: https://hullse.al/ImportantInfo</p>	Give a quick link to our TOS and other important information.
!verify [Name]	<p>[Name]: We just need to check some things. Please confirm for us: (1/4)</p> <p>Your Current Game Mode, CMDR name, and current system. (2/4)</p> <p>Please also provide a screenshot of your cockpit view, with system and date visible. We encourage programs like imgur or Discord for image hosting. (3/4)</p> <p>Seals, please hold position while we check. (4/4)</p>	<p>Confirm the details of a client if there are suspicions of foul play afoot.</p> <p>[DISPATCH AND STAFF USE ONLY.]</p>
!welcome [Name]	<p>[Name]: Welcome to the Hull Seals! We've got your case details and we'll be with you shortly. Just take a breath, stay calm, and follow all instructions given to you by Dispatchers.</p>	Welcome a new client and prep them for their repair.
!wing [Name]	<p>[Name]: Open your Comms Panel (top left option), and select the third tab. Then, select the Seal(s) you want, and select Invite to Wing.</p>	Tell clients how to add a Seal to their wing.
!xbfr [Name]	<p>[Name]: Tap your XBOX button, then go to the Social tab and search for your Seal's name. Be sure to add the Seal(s) as your friend.</p>	Tell clients how to add a Friend on Xbox.

You have to be a registered (+r) user in our IRC in order to use most of these commands.
